

Dear

I am writing to express my support for 2 bills: HB 1176 Workplace Accommodations for Pregnant Women and HB 1100 Workplace Accommodations for Nursing Mothers. Both these bills aim to support Pennsylvanian women in being both productive employees and healthy mothers. We know that the more woman stay healthy and employed, the stronger families become, the healthier our economy is and the less drain there is on the welfare and medical systems.

As Unitarian Universalists we covenant to affirm and promote justice, equity and compassion in human relations. Treating our working mothers with the care they need and deserve is not only compassionate but makes good business sense too.

Please vote in favor of these bills.

Sincerely,
