i Amy,
Here are the updated ads I designed for Main
Line Unitarian Church.

I moved the general website up, under the
logo. I made the website name 50% BLACK so
it doesn't interfere with the logo's emphasis.

I added a .5 rule under the main website to
create a break from the local Main Line
Unitarian Church info at the bottom. I added
the www.mluc.org website to the bottom line
with the church's phone number.

For the third ad, there's less space to work
with, so I added a .5 rule to both sides of the
general website. The ML Unitarian Church
name is decreased in size to 10 pt. text, which
matches the size of the 2 lines of text
underneath. (The top 2 ads, the church's name
is 11 pt.)

Thank you for advertising with us!
